

Remote! Air Quality: Science For Solutions 4

June 17th - 18th, 2020

Highlights:

- Keynote Speaker BYU Professor of Economics *Dr. Arden Pope*
- **Scientific Talks** on health and economic impacts, emissions studies, air pollution chemistry, photochemical modeling, and climate change
- **Networking Opportunities** with local air quality scientists
- Registration fees have been **refunded***, but please register if you have not already done so. Only registered participants will be emailed a link to join the conference.
- Late breaking posters are still being accepted. Please submit a poster abstract by June 1st.

More Information: airqualityscience.org

*send questions about registration to jsohl@weber.edu

Engage with the scientific community over Utah's most pressing air quality issues!

Attend a virtual poster session!

Can't make the remote conference? View recordings of oral presentations and interact with posters after the conference ends!
