

CALL FOR ABSTRACTS

Wednesday afternoon, March 24th and
Thursday morning, March 25th, 2021
Online

Abstract Submission Deadline: **March 1st, 2021**
General Registration Deadline: March 20th, 2021

Air Quality: Science for Solutions is holding a full-day conference (split into two half-days this year) emphasizing scientific progress in understanding the complicated and unique air quality issues that exist in Utah and the Intermountain West. This is the fifth in an annual conference series organized by Utah State University, Weber State University, the University of Utah, Brigham Young University, and the Utah Division of Air Quality.

Abstracts are now being accepted for oral and poster presentations. Oral presentations will be 15 minutes, followed by a five-minute question/answer period. Go to airqualityscience.org to submit your abstract.

Student poster contest with prizes!

Topics may include, but are not limited to:

- **Air pollution chemistry and measurements**
- **Regional photochemical modeling**
- **Meteorological modeling and Great Salt Lake studies**
- **Air quality and public health impacts**
- **Air quality and regional climate change**
- **Emissions studies and analysis**
- **Policy, industry, and economic impacts**
